BIAC Student & pilot prepare for take-off during "EndEx ISR flight".
Eindhoven Airport-April 2009

Welcome to Alon Givon

With the start of our last Basic IA Course in January '09 we have welcomed our new instructor, Mr Alon Givon. Alon is in the ISR business since the mid 80's. As an experienced F-4 and F-15 Aircrew, Alon became project manager in the mid 90's for a variety of Instruction & Training systems for manned and unmanned platforms. Alon retired as Major. At VISRA Alon is lecturing Mission Planning and Execution, UAV platform & sensor operations etc.

Welcome to Maartje van Vemde

As of the 1st of May 2009 Maartje has joined our team as Office Assistant for both Vigilance and the ISR Academy. Maartje studied Commercial Communications Management.

We are more than delighted that both Alon and Maartje have joined our team in Eindhoven.

Advanced Imagery Analyses Course revised

The Advanced Imagery Analyses Course (AIAC) has been revised in order to meet the latest customers needs. This course, which is first scheduled in November/December 2009 will provide students advanced knowledge on the following subjects:

- IA Management
- Advanced IA Techniques
- Advanced Analyses and Reporting (Subjects according to Stanag 3596)
- Advanced Camouflage, Concealment & Detection studies
- Advanced Strategic Industries studies
- Multi-Source Imagery, including SAR and FMV
